

A330D

Ideal for video-telephony

Remote control

Long wearing comfort

USB sound card

HD audio

Busylight

Snom's binaural USB headset

The A330D delivers excellent HD audio quality across the entire human auditory frequency spectrum thanks to modern D/A converter technology and an optimised speaker. The soft on-ear cushions with 3 adjustable axes, are very comfortable to wear - even over several hours. Most background noises in the environment are suppressed. The entire voice band is recorded using a high-quality microphone, digitized

and then transmitted via USB to a computer or IP desk phone, allowing the A330D to function as a headset with almost any communication software platform. The integrated remote control can be used for call functions, mute and availability and display status via LEDs on the right earpiece and microphone boom.

Basics and equipment

- Product information
 - Binaural headset | black | PN 00004598
- Equipment
 - Ear cushions: 3 axis adjustment, soft leatherette, memory foam filling, designed for full day usage, replaceable
 - Headband: padded for long-term comfort, 35 mm adjustable length
 - 270° bendable, pivotable boom

Dimensions and weight

- Dimensions (L × W × H, approx.)
 - Packaging: 200 mm × 200 mm × 80 mm
- Cable length (approx.)
 - 2.4 m total, 1.4 m from headset to remote control, 0.95 m from remote control to USB connector
- Weight (approx.)
 - Headset: 220 g
 - Remote control: 66 g
 - Packaging: 540 g
